PACKAGING AND MACHINERY SOLUTIONS

We are your one stop packaging shop.

Age is a wonderful thing. With age comes maturity and with maturity comes experience. Celebrating 125 years of Holmes Mann presents such a broad wave of emotions that putting them into a concise package has probably been the most difficult packaging task to date. Representing the company that has been in my family for generations is a great honour and I consider myself incredibly fortunate to have you reading this today.

So what does 125 years mean to us? More importantly, what does it mean for you? You'll be pleased to hear that we haven't put on our slippers and sunk into our arm chairs just yet. Rather, the fire of ambition that set the Holmes Mann wheels in motion all those years ago still burns strong in us all. We believe 2015 is the year that we all push ourselves further to improve and build on the service you already know and love.

We live in an age now where innovations happen everyday. You, our customers, are living and working in an era where productivity is at its peak of efficiency and your clients are always demanding more.

We at Holmes Mann are locked in with these new and exciting times. We're on the cutting edge of packaging technology and innovation meaning we can work faster and more efficiently to keep up with your client's demands. We want to work hand-in-hand with bringing all of our customers, old and new, to the new frontier of product delivery through intelligent packaging design.

So what does 125 years mean for us all? It means that we at Holmes Mann have the knowledge and expertise to be ready for anything you bring through our doors. We've been established since 1890 and we're still passionate about packaging.

THE PACKAGING PROFESSIONALS
1890 - 2015

CARDBOARD TUBES

More than meets the eye and not just a toy lightsaber. We manufacture all of our tubes in-house, which means you can have them made to your desired size.

Constructed from high quality cardboard, we can make your tubes spiral or straight wound. For your spiral tubes, we offer a flexo printed inner, or outer, kraft paper with up to three different colour designs.

We also understand that one size doesn't fit all, so we utilise the latest 'Core Cutting' technology, allowing us to offer you narrow cut cores for labels or adhesive tape and much more.

- Available spiral or straight wound,
- Printable design kraft on spiral tubes in up to 3 different colours,
- Latest in Core Cutting technology to achieve your desired length.

CASES AND PALLETS

Our purpose built cases and pallets are natural born survivors. Constructed from the finest and ethically sourced timber, these resilient cases are rigorous and travel friendly. They are the staple piece of any packaging company and we offer our range with pride.

The heat treated timber we use is certified by the UK Wood Packaging Material Marking Programme, fully audited by the forestry commission in compliance with ISPM15, meaning they have the all clear to be exported across the globe with full traceability.

- We offer an in-house tailoring service to cater for any dimension,
- All cut and made to order,
- High quality timber sourced from sustainable forests,
- Complies with export regulations.

CARDBOARD BOXES

The humble cardboard box is an advanced science we're proud to say we've mastered. From plain to extravagant and thick to thin, we believe we have you covered. All our boxes are made to order and designed specifically to your precise requirements.

Our facilities give us the flexibility to create small, single wall die cut cartons, all the way up to triple wall, heavy duty transit boxes. But to really make your package stand out, take advantage of our in-house printing services that brands your box with your corporate logo, web address, product information or any other details of your choosing directly onto the cardboard.

- Single wall, double wall and triple wall builds for all manner of protection,
- In-house printing for brand personalisation,
- Full heavy duty transit packaging options that can be attached to pallets for ease of transport and lifting.

THE PACKAGING PROFESSIONALS

CUSTOM PRINTED TAPE

At Holmes Mann we understand that presentation can make or break a first impression, so our custom printed tape is designed to ensure that your message is never ignored. As a standard, we offer the more common types of printed tape, such as, 'fragile' and 'this way up', though we also offer options that are more bespoke.

Our in-house print service allows us to print your brand identity and other information directly onto the tape. We are proud of our knowledge of tape and we will make sure you are recommended the best to suit your application, which is why on top of our standard 5 widths, we can custom create tape widths and lengths to any size you require.

- Standard width tape sizes: 19mm, 25mm, 38mm, 50mm & 75mm,
- Custom tape widths available on request,
- Custom designs with in-house printing in up to 3 colours,
- Standard hand roll lengths are 66m and machine rolls are 990m.

PACKAGING MATERIALS

What use is a sandwich without the filling? Our packaging material department is lined from wall to wall with all manner of packaging options you could need.

Depending on your requirements, we will have the correct packaging material on hand to safely package your goods.

We have you covered with stretch film and polypropylene strapping for the outside, to bubble wrap and air cushioning for the inside. The range is vast and varied so you can rest assured that there is the perfect material on hand to provide first class travel conditions for your product.

- Tapes, both printed & plain, dispensers, stretch film and strapping,
- Bubble wrap, air cushioning, poly sheets and void fill,
- Machine stretch film, in varying microns and power pre-stretch,
- Plenty of other packaging materials available, such as, corrugated paper rolls, polythene pouches, textile rolling boards, kraft paper rolls & postal bags.

THE PACKAGING PROFESSIONALS

SIAT

PACKAGING MACHINERY

Holmes Mann are proud to be only 1 of 2 diamond plus distributors in the UK for the Siat range of packaging machinery. This accolade is the highest achievable from Siat in the distributor network.

We have a dedicated Siat sales team working hard behind the scenes to make the process flow effortlessly, as well as holding a large amount of spares in stock at all times. We have over 30 years of experience with Siat machinery and services.

Our range of packaging machinery can streamline your production process by speeding up the efficiency of your production line. Call and arrange a visit for a demo now and start to transform your business.

- Pallet wrappers, Carton sealers, Case erectors and Heat shrinkers,
- Cost effective and simple to manage,
- Speedy and efficient production line,
- Siat trained sales engineers on hand for support, servicing and call outs,
- Cushioning and Strapping Machinery also available to compliment any packaging production line.

TRANSPORTATION & DELIVERIES

We truly value the work we do and being a part of the packaging and delivery industry, we believe that punctuality is paramount. We have a dedicated transport department that's sole aim is to get your packaging solution to you on time, so that your deadlines are met and achieved.

Product protection is our speciality and has become second nature, so you can rest assured that your orders will arrive in prime condition. Whatever your packaging solution is, from any of our departments, you can be sure your box, pallet, tubes, tape, bubble wrap or Siat packaging machinery will be packaged and delivered with care. From concept to delivery, it's the complete package.

- Holmes Mann managed delivery service,
- Punctuality guaranteed,
- Nationwide delivery,
- Product safety and quality guarantee.
